ACTIVITIES

Retail Realm - Intern   Jun. 2023 – Aug. 2023
- Full time internship working on test cases and designing UI/UX for XStreamPOS, Retail Realm's POS software
- Learned how to work in a true software engineering job, how to ask questions, and be proactive

Retail Realm - Part Time Employee   Sep. 2023 – Present
- After my internship, I was invited to continue work as both a software developer and UI/UX designer for XStreamPOS

Chipotle - Crew Member   Apr. 2022 – Present
- Have worked 10+ hours a week for over a year.
- Learned dedication, consistency, and customer service.

USACO - Competitor   Dec. 2021 - Present
- A programming competition for high schoolers, I reached the silver division (top 20% of competitors)
- Learned problem solving skills, determination, and C++ proficiency.

Asha for Education - Web Developer   Feb. 2022 - Jun. 2022
- Worked with a group of professional developers and students to create the website for Asha, a non-profit focused on bringing education to kids in need.
- Learned how to independently solve problems and when to ask questions.

School Robotics Team - Software Developer   Sep. 2020 - Jun. 2022
- Worked with a team of students to design code for our school robot and compete in FRC.
- Learned how to work in a team, deal with frustration and Java proficiency.

TechnoSmartKids - Tutor   Apr. 2023 - Present
- Teach elementary school students basic Python.
- Learned leadership, having a strong voice, and how to simplify concepts.

DECA - Competitor   Sep. 2022 - Present
- Reached ICDC (internation stage of competition – less than 10% of competitors).
- Learned communication skills, how to sell, and creativity.
